### Topic One

Volunteers,

please be mindful that parent visits are the only time the children get to see their parents. This is a special time for the family, so we are only there to observe. Please do not stay any longer than 30 min. and do not have conversations with the family during the visit. If you want to speak to the parents about how they are doing, please set aside a separate time.

**Simple craft ideas to do with your kiddos on a visit!**

**Holidays tend to be the time of year that children will be struggling the most with the fact that they are not with their families. By having them list all the things they are thankful for and maybe discussing each one with them, it might lift their spirits by allowing them to see how much they truly do have. This is also a great activity to do on thanksgiving with your family as well!**
